

Indigenous Physicians Association of Canada

PRIDoC 2010 Conference

PRIDoC Vision:

“Pacific Doctors for Pacific Peoples for Pacific Health.”

Theme:

“Sharing Our Stories”

Title:

“Building strength through the circle of knowledge translation”

Goal:

The goal of PRIDoC 2010 is to bring Indigenous physicians and medical students together in a healthy and safe environment to share and build upon our local knowledge, and our skills and expertise to continue to deliver stronger, indigenous-based medical services to the people of our Pacific territories.

Objectives:

1. Share traditional components on Indigenous health and medical information through plenary and key-note sessions, workshops, presentations and posters
2. Share knowledge from policy, clinical practice research on Indigenous health and medical information
3. Provide topics and opportunities for formal and informal discussions among participants
4. Provide networking and partnership opportunities among professionals and health support systems (pharmaceutical, government, community) from pacific regions
5. Provide opportunities for participants to engage in healthy lifestyle activities (nutrition and physical activity)
6. Promote and encourage the exchange of wholistic cultural practices

Accepted by PRIDoC 2010 Planning Committee June 10, 2009
